

## **BANK ACCOUNTANT**

### **Your responsibilities**

As Bank Accountant you are responsible for ensuring full, timely and correct closure of all bank accounts and related balance sheet accounts of all legal entities of Delhaize Belgium and Luxembourg, in order to ensure periodic reporting.

- You will carry out the periodic financial accounting process for your own functional domain in order to guarantee the full, accurate and timely closure of the accounts (monthly, quarterly and year-end closing).
- You will manage the short term cash planning & forecasting for all entities.
- You manage the administration of bank related topics (open/close bank accounts, managing credit cards, ...).
- You are in charge of the internal control in order to ensure the SOX conformity of the transactions and administration.
- You maintain good relationship with your stakeholder (banks, payment providers, internal departments ...).
- You take part in project within your functional domain.

### **Your profile**

- You have Bachelor or Master degree in Finance/Economics/Accountancy.
- You have 4 years' experience in accounting or financial services or Audit.
- You have good knowledge of international control procedures and good analytical skills.
- You are systematic, structured and accurate in your work.
- Knowledge of IFRS and BEGAAP is a strong plus.
- You are trilingual (ENG/DU/FR).
- You have a good knowledge of MS Office and SAP.

### **Our offer**

An attractive salary with extra-legal advantages, real career opportunities, a nice work atmosphere et pleasing colleagues. At Delhaize, you will not only have the challenge, but also the fun.
