- Manage day-to-day activities to support the wider HR community and other interrelated functions through a network of Key Users.
- Develop and maintain documentation of HRIS processes and tools, system training material and educate HR and other end-users in the effective use of HR systems.
- Serve as key liaison between HR, IT, external vendors, various stakeholders and functional support teams as it relates to the use of HR Technologies.
- Establish and maintain security and integrity controls.
- Manage projects associated with implementing new functionality and/or enhancements and conversions to existing functionality.
- Create and drive improvement into current HR dashboards and reporting.
- Ensuring quality and consistency of HRIS databases information.
- Keep up-to-speed on key HR systems technology and trends

### *Your profile*

- Bachelor/Master degree
- Fluent in English, other languages are an asset
- A first work experience is welcome
- Interested in HR Software systems & proficient in Microsoft Office
- Willing to learn in a fast changing technological environment
- Analytical mindset, problem solving, critical and creative thinking
- Project oriented, well-organized and able to work independently to meet deadlines
- Service-minded & effective communication skills
- Discretion & confidentiality are key

### *We offer you*

- A permanent contract
- A professional environment ideal for your personal growth and career development
- A fun working atmosphere where team spirit is the real deal
- Exciting and challenging projects with an international scope
- A competitive salary package in line with your experience
