Supply Planner - Zele (Belgium)

9/07/2018

We are currently looking for a Supply Planner for our planning team. This position is based in Zele and the person in this position reports to the Team leader Planning.

Responsibilities:

- Handling the supply chain process from order till delivery in co-operation with purchase professionals, production and other departments (customer service, warehouse, product management, ...)
- Maintaining adequate stock levels for the products linked to his/her group, based on inventory policy, taking into account the impact on O&E and the impact on workload and volume
- Defining priorities based on available capacity and workforce
- Clear and timely communication to the concerned Customer Service Organization(s) and/or any one that might benefit from communication, in case of late delivery of products or any other event that might affect the total supply chain process
- Responsibility for the creation and maintenance of the relevant Master Data fields, such as planning parameters, lead time, MOQ, ...
- Proactive follow-up of open sales orders to discover possible issues in master data, purchasing, production, planning, ...
- Proactive follow-up of phase out/phase in to reduce obsolescence or avoid shortage in supply
- Actively anticipate peaks or drops in demand by working together with marketing/sales
- Handling daily issues by performing root cause analysis and problem solving techniques in order to obtain long term solutions
- Ensuring that performance indicators are met: customer service, on time delivery, leadtime, turns, O&E, ...
- Back-up colleagues when required
- In this position you will report to the Teamleader Planning
