

Functietitel: Data Bootcamp

Data Bootcamp

Content function

Data is the new gold.

Within TVH we know this all too well. Last year we sold over 55 million items, have 750 000 products on stock and more than 37 million references of 8000 different brands.

To get the most value out of this data we are setting up a bootcamp to help young potentials to gather the necessary skills in data engineering.

After this Bootcamp, you will join a team of experienced colleagues who are responsible for the design, development, maintenance and documentation of data transfer systems.

As a data engineer your responsibilities are:

- assisting the BI analyst on all technical questions
- mapping the different source systems to an Enterprise Data warehouse
- building the ETL systems and adding testing and quality measure systems
- documenting the central data repository and data catalog
- giving support for data quality issues
- improve current flows and processes

Profile

Must have

- A strong interest in data
- A bachelor degree in ICT or relevant experiences.
- Knowledge of SQL
- A strong analytical mindset
- Creative and innovative skills
- Ownership
- Ability to work autonomously on a structured and accurate manner
- Fluent (written and spoken) in English and Dutch

Nice to have

- Knowledge of Pentaho
- Affinity with data engineering
- Knowledge of ETL

Offer

- An exciting position in an international company with a family atmosphere where people are at the centre.
- You are part of a dynamic team, where initiative and entrepreneurship are valued.
- You arrive in an innovative, progressive and technical environment.
- Numerous opportunities for personal development, among other things through permanent guidance and professional (internal/external) training courses.
- A flexible work arrangement with attention for a good balance between work and private life.
- An attractive salary package with extralegal benefits such as group and hospitalization insurance, luncheon vouchers, corporate restaurant ...
