

## Data Engineer LAN/WAN and Security

### Damovo Belgium

#### Key responsibilities

A fantastic opportunity has arisen for a Data Engineer LAN/WAN and Security to gain valuable experience in a growing global ICT organisation.

Reporting to the Head of Operations, responsibilities will include:-

- Being responsible for the installation, management and maintenance of IP applications (wired and wireless) and LAN/WAN networks.
- installing LAN/WAN networks and components
- providing support to the colleagues of the “voice” when they encounter some problems requiring “data” expertise
- realizing audits at customers sites in order to analyze the readiness of voice and video and comment the results in reports
- managing and provide services to customers who have our products installed
- actively participating in the development of the “remote monitoring” portfolio
- occasionally ensuring missions abroad (The Netherlands, Luxemburg)
- giving support to the Account Manager for the preparation of meetings at customers sites and assist when required

#### About Damovo

Damovo delivers technology enabled business efficiencies to enterprises around the world. Our customers benefit from our 40 years of experience, expertise and ecosystem of industry partners.
