

Burger Brands Belgium plc is a Belgian company operating the well-known brands Quick and Burger King® in Belgium and Luxembourg. Burger Brands Belgium, headquartered in Wilrijk, Antwerp, has a dedicated team of 60 employees who support the 4 corporate values "Entrepreneurship, Team spirit, Respect & Customer oriented."

As a company with a dynamic, young and innovative spirit, we are always looking for enterprising and learning candidates to meet new challenges. Are you such a person?

IT Support

Responsibilities:

- You support the existing applications (Cloud solutions, Office 365, SharePoint, Active directory, Network, VOIP, NCR) and suggest the best solutions;
- You support the restaurants in their day-to-day POS systems and back office;
- You support the Headquarter day-to-day IT Infrastructure and POS systems;
- You research and evaluate new technologies;
- You report directly to the IT support manager.

Profile:

- Bachelor's Degree or affinity in Computer Science or related field or experience.
- Ability to maintain relationships with main partners and communicate appropriately with them.
- Customer-centricity, creativity and solution orientation are second nature to you.
- Flexible and stress-resistant and can translate a vision into a concrete action plan.
- Strong verbal and written communication skills in French and Dutch with the ability to articulate technical ideas in easy to understand business terms

Preferred Experience:

- Experience in the hospitality and restaurant business
- Experience with IT infrastructure is a plus (Microsoft solutions, Cisco, etc)
- Experience with SharePoint is a plus

What we offer:

- A job with responsibilities and challenging project within an ambitious, dynamic and innovative organization
- Interesting projects and career opportunities
- An indefinite contract with a mutual commitment to invest in your career and an attractive salary package
