

## Are you finalising your Master/Bachelor degree?

### Data Scientist, Data Analyst, BI Consultant and Management consultants,... Discover a world of Data & Digital opportunities at Keyrus!

**Keyrus** is currently looking for ambitious graduates to reinforce our Business Intelligence, Performance Management, Management Consulting and Big Data & Analytics Team practice in Belgium.

#### Job Description

As a **Junior Data Consultant**, you will be offered an **extensive training program** where you will not only explore multiple tools, technologies and business processes used in Data/Digital transformation but just as importantly, get the opportunity to develop your soft skills.

We believe that each person is different, so depending on your talent, personality and your own ambitions, the program will be tailored-made for you! By combining trainings with hands-on experience as part of a project team, whilst being coached by our Expert consultants, we believe we can give you the perfect platform to reach your potential.

You will gain invaluable experience in different sectors and various functions, along with having the opportunity to choose your own career path. Most of your time will be spent on client sites in Belgium but there can be an opportunity to travel abroad.

#### Profile

- Bachelor or Master Degree in IT, Computer Science, Economics, Business Administration, Marketing, Finance or a related field with a strong interest in Data, Digital, IT and new technologies
- Interest in how Data is being used in this 4<sup>th</sup> industrial revolution
- Strong analytical competencies, an eye-for-details and an a curious mind are essential
- Excellent communication and interpersonal skills
- Fluent in Dutch and/or French and English

#### What we offer

- A tailor-made training program
- A great working environment, surrounded by experts and a lot of fun activities
- An attractive salary package and a company car
- Globally renowned clients
