

# We make statistics yummy! **Want to join us?**

Why do we make statistics **yummy**?

We want to help organizations to constantly **evaluate** and **challenge** themselves to **do more**.

How do we achieve **that**?

Our BrightAnalytics **management reporting platform** gives people the tools to focus on the figures that matter and take data-driven decisions faster:

- Visualizing financials in intuitive dashboards
- Consolidating data from multiple sources
- Analyzing cross divisions/operations/entities
- Providing reports in real-time

## Want to **help**?

As Junior/Senior Software Developer

- **Develop** new reporting and analyzing tools
- Help us **innovate** new technologies
- Turn complex challenges into **user-friendly** solutions

As Software Architect

- **Analyze** non-functional and functional requirements
- Define and visualize roadmaps and **architectures**
- Smoothly integrate new developments into the **bigger picture**

## Who will confirm that we are **yummy**?

Customers like Codit, Living Tomorrow, L. Cortès, Serax, Stas, Vivaldis and many more

# Feel like being **yummy too**?
