

Ontex is looking for an

R&D Product Developer Technology

Ontex is a fast growing international company where people are the most valuable asset. To reinforce our R&D team, we are looking for an R&D Product Developer Technology.

Your role

The R&D Product Developer Technology participates actively in strategic (long-term) product development projects. He/she performs the full scope of R&D tasks included in the stage-gate process, supporting the respective project leader. Moreover, he/she supports the Group R&D Manager Product Technology in developing digital applications for the personal hygiene business and to collaborate with internal and external resources.

Main responsibilities and key tasks

- Support and drive innovation that comprises digital components and electronics / IoT for integration into the personal hygiene products and services portfolio
- Create concept board / white paper and presentations for technical solutions
- Actively contribute to keep a close collaboration between IT & R&D, embrace existing IT platforms, procedures and policies to ensure a consistent global approach.
- Keep track of a project plan and budgets with internal and external resources
- Moderate between different stakeholders joining the project, e.g. R&D, Engineering, IT, Marketing, external development partners
- Perform trials, validate products against product specification; evaluate and summarize results
- Support the developers team to comply with requirements for wireless transmission, data privacy (GDPR) and applicable legislation for electronic devices

Your profile

- Master degree in electronics, information technology or engineering
- Professional experience, especially on Internet of Things and creation of software apps for mobile devices, is considered a plus
- Excellent knowledge of English and Dutch
- Broad scientific and technical background, fair knowledge in statistics
- Good analytical and organizational skills
- Both visionary and results oriented
- Strong communication and presentation skills - outgoing & at ease in connecting with people
- Very good team-working skills

We offer you

- A professional environment ideal for your personal growth and career development
- A fun working atmosphere where team spirit is the real deal
- Exciting and challenging projects with an international scope
- A competitive salary package in line with your experience
