

Itineris, headquartered near Ghent – Belgium, is an innovative and international IT Consultancy group 100% focused in the utility sector. We provide innovative software solutions (UMAX) built on the Microsoft Dynamics AX® platform as well as IT related services for utility companies based in Europe & North America.

Founded in 2003, Itineris is recognized as a Microsoft Gold partner, has a sound financial base and has established an impressive track record of successful implementations. Our client portfolio consists of international and regional players such as E.ON, Engie, De Watergroep, City of Baltimore, Eneco, Delta...

Today we count 300 IT and utility specialists and are looking for talented consultants and managers to join our team.

TEST CONSULTANT

Your role and tasks...

As a Test Consultant, you're responsible for the qualitative testing services of our products and solutions before their 'go live'. You ensure the successful finishing of a project by executing the integration & system tests and guaranteeing that these tests were conducted according to internal standards and methodologies.

Within your job as Test Consultant, you will:

- ✓ analyze functional & business requirements
- ✓ develop test cases
- ✓ convert test cases into test scenarios and execute these scenarios
- ✓ report status of test progress and log defects accurately
- ✓ communicate with the (test) team, test coordinator and project manager
- ✓ maintain a professional relationship with functional & technical teams
- ✓ contribute to the business and test knowledge within the team

Who are we looking for...

A dynamic team player looking to grow in an evolving, international environment and who

- ✓ has a Bachelor or Master's degree
- ✓ has an affinity with the ICT sector
- ✓ is detail oriented and accurate
- ✓ has a strong interest in understanding customers' business processes (functional knowledge)
- ✓ is a native Dutch speaker with good communications skills (written/spoken) in English
- ✓ is a team player
- ✓ an initiative taker: capable to extract information from key-persons and not afraid to go in depth
- ✓ willing to and capable of continuously learning
- ✓ deep knowledge of a business application (ERP is an asset)
- ✓ experience in a testing role or knowledge of utility business is a plus

What we offer...

- ✓ Work for a leading International software vendor in the utilities sector elected "Most Promising Company 2012"
- ✓ Gain valuable experience in a fast-changing technological market
- ✓ Long term career development
- ✓ An attractive and competitive salary with fringe benefits (including a company car)
