As a Web developer you end up in a dynamic and challenging IT environment.

- You are responsible for the design and management of one or multiple TVH websites or intranet, for the creation of prototypes of web pages so that these are usable for the websites and web applications.
- You are responsible for the Front-end Layout.
- You will update dynamic web forms.
- You are responsible for the Front-end scripting.
- You offer support to the Software Developer in the development of dynamic websites and the realisation of application prototypes.
- You follow up and optimise the functioning of the web infrastructure.
- You identify problems and come up with solutions for these.

Profile

- You have a Bachelor's Degree in ICT or equivalent by experience.
- You have a knowledge of graphic design. (Usability & Accessibility)
- You have a strong knowledge of CMS Drupal.
- You have an up-to-date knowledge of different design and internet technologies (Dreamweaver – HTML 5 – CSS – Javascript/JQuery – Web standards – XML – Web 2.0 – Photoshop)
- You have a basic knowledge of Java web development
- Knowledge of Varnish is an asset.
- You communicate fluently in Dutch and English.

Offer

- An exciting position in an international company with a family atmosphere where people are at the centre.
- You are part of a dynamic team, where initiative and entrepreneurship are valued.
- You arrive in an innovative, progressive and technical environment.
- Numerous opportunities for personal development, among other things through permanent guidance and professional (internal/external) training courses.
- A flexible work arrangement with attention for a good balance between work and private life.
- An attractive salary package with extralegal benefits such as group and hospitalization insurance, luncheon vouchers, corporate restaurant ...
