

## Clinical Research Associate

**Join us on our exciting journey!**

IQVIA™ is The Human Data Science Company™, focused on using data and science to help healthcare clients find better solutions for their patients. Formed through the merger of IMS Health and Quintiles, IQVIA offers a broad range of solutions that harness advances in healthcare information, technology, analytics and human ingenuity to drive healthcare forward.

As you start or develop your career as a CRA, this role offers you the opportunity to plan and progress your career in the direction you choose. You will have dedicated mentoring and receive structured quarterly reviews on performance, promotion and bonus awards.

Award winning and innovative, we will give you access to cutting-edge in-house technology, allowing you to work on regional and/or global projects but with a regional / home state travel remit. You will be building a smart and flexible career with no limits.

**While projects vary, your typical responsibilities might include:**

- Performing site selection, initiation, monitoring and close-out visits, plus maintaining appropriate documentation
- May assist in supporting the development of a subject recruitment plan
- Establishing regular lines of communication plus administering protocol and related study training to assigned sites
- Evaluating the quality and integrity of site practices – escalating quality issues as appropriate
- Managing progress by tracking regulatory submissions, recruitment, case report form (CRF) completion, and data query resolution
- Establishing regular lines of communication plus administering protocol and related study training to assigned sites
- Evaluating the quality and integrity of site practices – escalating quality issues as appropriate
- Leading progress by tracking regulatory submissions, recruitment, case report form (CRF) completion, and data query resolution

- Onsite monitoring

**You should have:**

- A Bachelor's degree or higher-level degree in a health care or other scientific discipline or educational equivalent
- Preferably on-site monitoring experience
- Alternatively, you should have an equivalent combination of education, training and experience
- Fluent written and verbal communication skills in Dutch and French including good command of English language are mandatory
- You will need to be comfortable collaborating and communicating with a variety of colleagues and customers and with travelling of up to 60-70%
- Ideally, you will also have a good knowledge of applicable clinical research regulatory requirements

If you want to make an impact in the global research market, where we are working to make a real difference in patient health, we ask you to **apply now and join our team**. Connect to *great opportunity™*

We know that meaningful results require not only the right approach but also **the right people**. Regardless of your role, we invite you to reimagine healthcare with us. You will have the opportunity to play an important part in helping our clients drive healthcare forward and ultimately improve human health outcomes.

Whatever your career goals, we are here to ensure you get there!

We invite you to join IQVIA™.
