

Organization

Pfizer is the world's premier biopharmaceutical company taking new approaches to better health. We discover, develop, manufacture and deliver quality, safe and effective prescription medicines to treat and help prevent disease for people. We also partner with healthcare providers, governments and local communities around the world to expand access to our medicines and to provide better quality health care and health system support. At Pfizer, colleagues in more than 90 countries work every day to help people stay happier and healthier longer and to reduce the human and economic burden of disease worldwide.

Our Pfizer Clinical Research Unit (PCRU) in Brussels is a state-of-the-art research facility with sixty inpatient beds dedicated to early clinical trials (Phase 1 & 2a studies).

As a Study Nurse you can expect

Job Focus

- Assures and is responsible for data and sample collection and safety of the trial subjects
